

Aronia arbutifolia

Red Chokeberry

***Aronia* is a deciduous shrub, native to the southeastern United States. Clusters of white to pink flowers in spring, red leaves in the fall, and the bright red fruit that persists into winter bring multi-seasonal interest to the landscape. Chokeberry makes a good screen or hedge, and naturalizes well. Tolerant of drought and tolerant of wide range of soil types and situations, from wet to dry. Requires full sun to partial shade.**

Height: 6' - 10' Spread: 3' – 5'
