

*Hibiscus coccineus*  
**Scarlet Rose Mallow**

**Woody-stemmed perennial that has dinner plate sized red flowers in summer. The seed pods that follow have an interesting appeal. Plant in full sun to light shade. Flowering is more abundant in sun. Damp areas are the natural habitat, but drier sites are tolerated. Attractive to many species of butterflies and hummingbirds.**

**Height: 5' – 7'      Spread: 2' – 3'**
